

UK Sovereign Border & Migration Control White Paper

Executive Summary

The UK faces a migration crisis. Illegal entry, unreturned migrants, and systemic failures have undermined public trust. This white paper proposes a 7-pillar plan to reclaim UK border control, restore legal order, and reinforce sovereignty through firm but lawful measures, based on proven global models.

Key Policies

1. Secure Detention & Offshore Processing: Detain all illegal entrants; process claims offshore (Ascension Island, Falklands, Cyprus, Rwanda).
2. Legal Inadmissibility for Illegal Entrants: Illegal entry voids all asylum claims.
3. Legal Reform: Sovereignty clause to assert UK law over foreign rulings; replace Human Rights Act.
4. Deportation Agreements: Return deals with source countries, tied to aid/visa cooperation.
5. Domestic Enforcement: Heavy penalties for employers, landlords, and fraud; digital ID system.
6. Citizenship Reform: Ban citizenship for illegal entrants; benefits require 5+ years of work.
7. Messaging Campaign: National and international communication on UK's firm stance.

Legal & Judicial Strategy

To prevent courts from blocking deportations:

- Derogate from the ECHR (Article 15) in emergency.
- Enact the UK Sovereignty and Border Control Act to assert domestic supremacy.
- Replace Human Rights Act with British Bill of Rights.
- Establish Special Immigration Courts with limited appeal rights.
- Prepare for potential ECHR suspension if needed.

Funding & Outcomes

UK Sovereign Border & Migration Control White Paper

Funding: 2.43.1 billion annually via redirected hotel costs, foreign aid cuts, and new remittance levy.

Expected Results (1224 months):

- 90% reduction in illegal crossings
- 2 billion/year saved
- Legal clarity, public support, restored sovereignty
